

BRAND GUIDES

Version 1.0

01

INTRODUCTION

This brand style guide contains everything you need to create a thoroughly recognizable Electra Protocol (XEP) document. It also offers our valued partners the necessary information to clearly and successfully market their brand in conjunction with ours.

By remaining consistent with our overall brand identity, we hope to demonstrate to others; we are all committed, albeit perhaps in our own ways, to a unique but unified core platform and vision. Remember, these are only style guidelines and are provided to help you create beautiful documents. It's up to you and your team to communicate the XEP brand in a focused, dynamic, and positive way. If you have a question about something you've produced and want us to take a look at it, please contact the communications and marketing department.

CMYK 65.57.57.35

DESCRIPTORS & CO-BRANDING

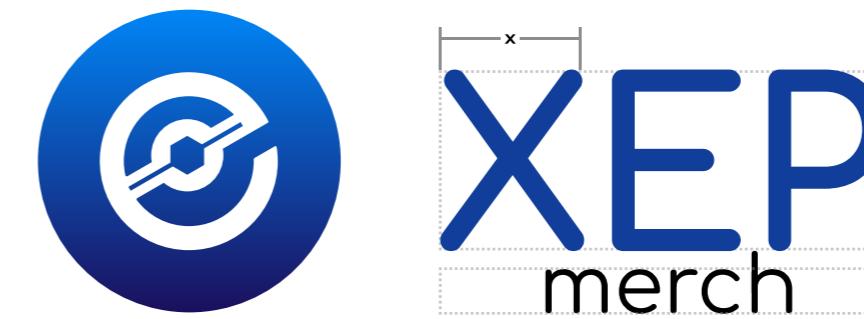

04

GRAPHIC CONSTRUCTION

IMPORTANT!

Sub-brand text: must be aligned to the center or right only!

04

SUB BRANDING GUIDE

Take care to be consistent with spacing and proportions when integrating projects with the XEP identity.

Sub-brand text: all countries must be aligned to the right side

04

CO-BRANDING

Partner and platform projects should use the XEP logo with “Powered,” as shown. Take care to be consistent with spacing and proportions when integrating projects with the Electra Protocol identity. Use this side by side version with the gray vertical connecting line.

Paragraph Style

It is recommended to typeset the text with alignment left and in the case of a large amount of text - by the width of the format (justify with last line aligned left).

Center alignment is never applied.

05

Header style in 2 strokes

Subline paragraph style with not more than 3 strokes and left and center align only

Update for mobile wallets during XEP airdrop claim process. As promised we released the XEP airdrop claim form and application.

Update for mobile wallets during XEP airdrop claim process. As promised we released the XEP airdrop claim form and application.

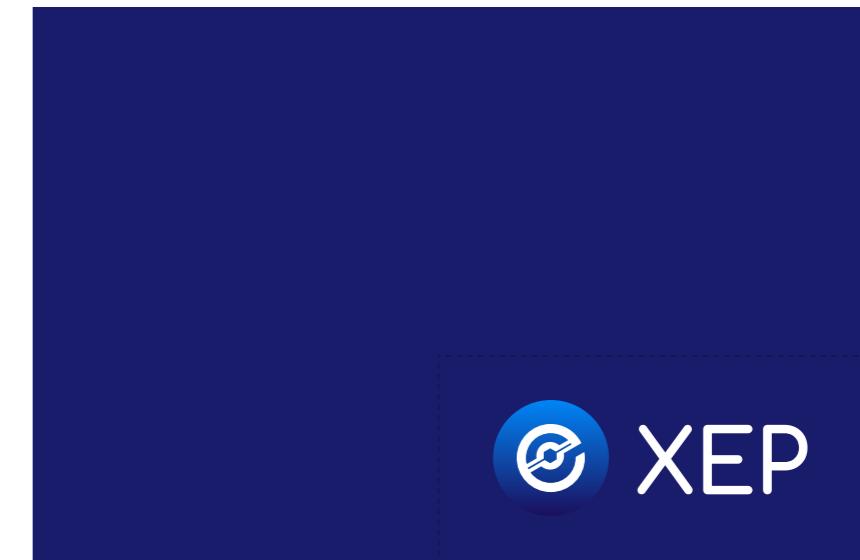

06

XEP USAGE

BACKGROUND COLORS

The primary background color palette is derived from the brand color palette. Depending on the background color of the communication, use the appropriate Electra color logo shown here.

06

BACKGROUND PHOTOGRAPHY

Place the logo directly on the background. Avoid placing the logo on high contrast areas that could interfere with readability. Avoid complex montages. Use simple, strong, personal, confident imagery.

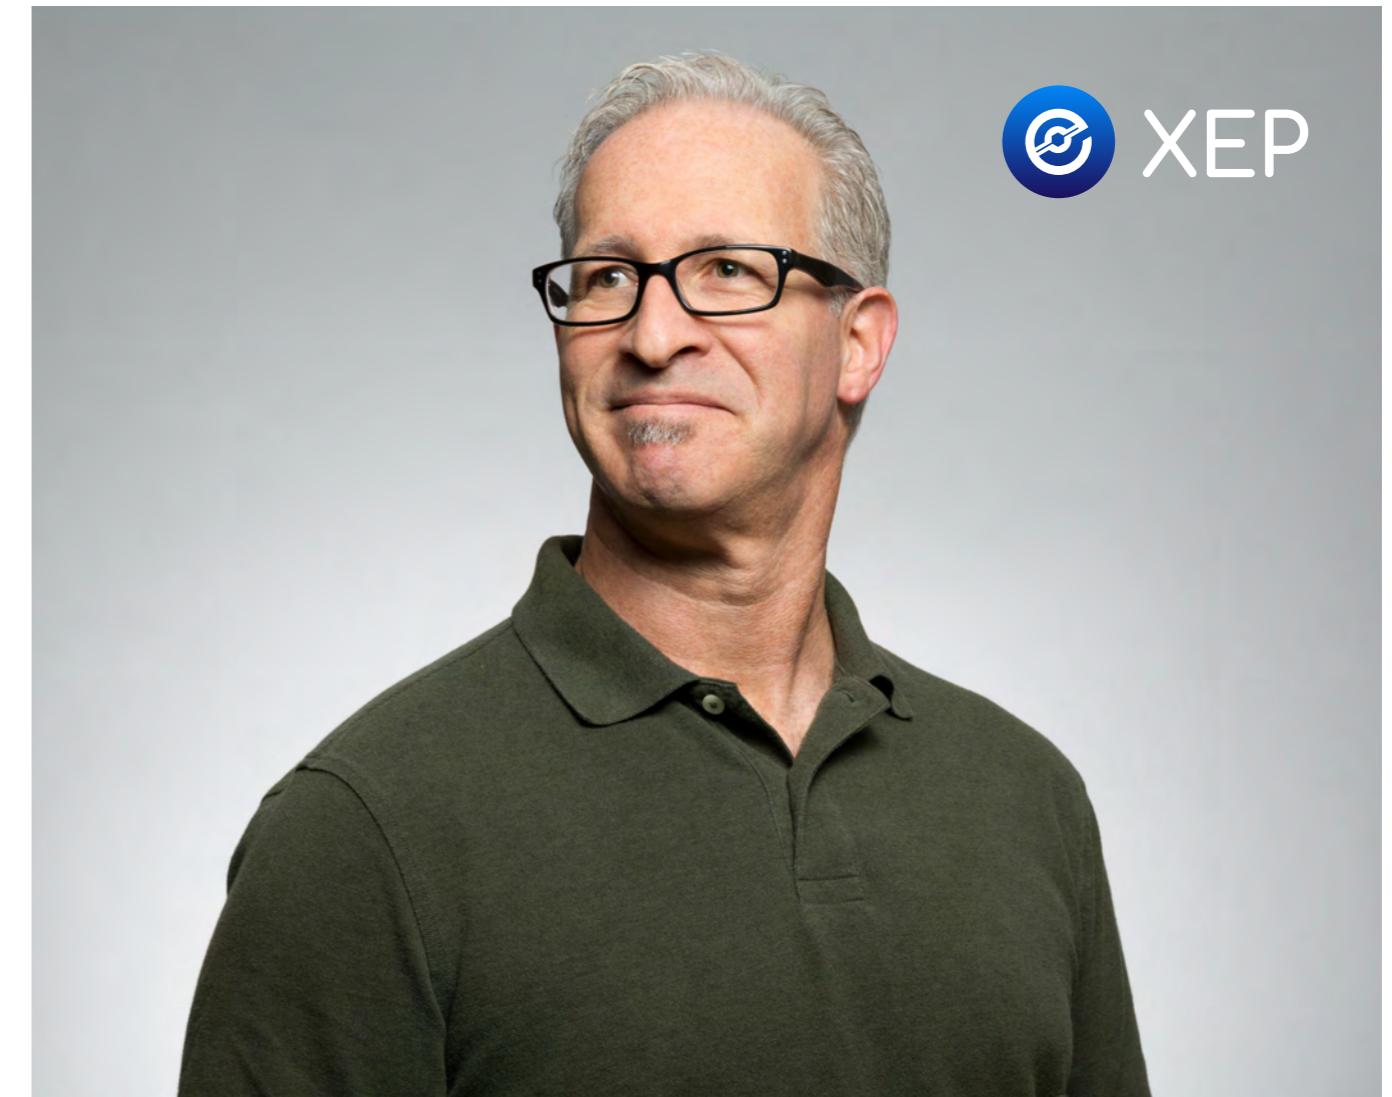

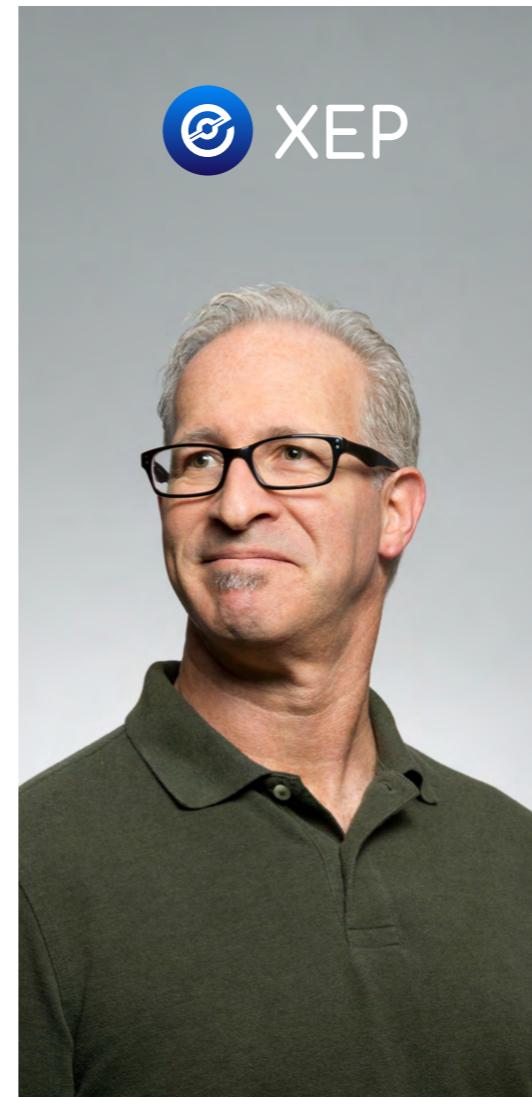

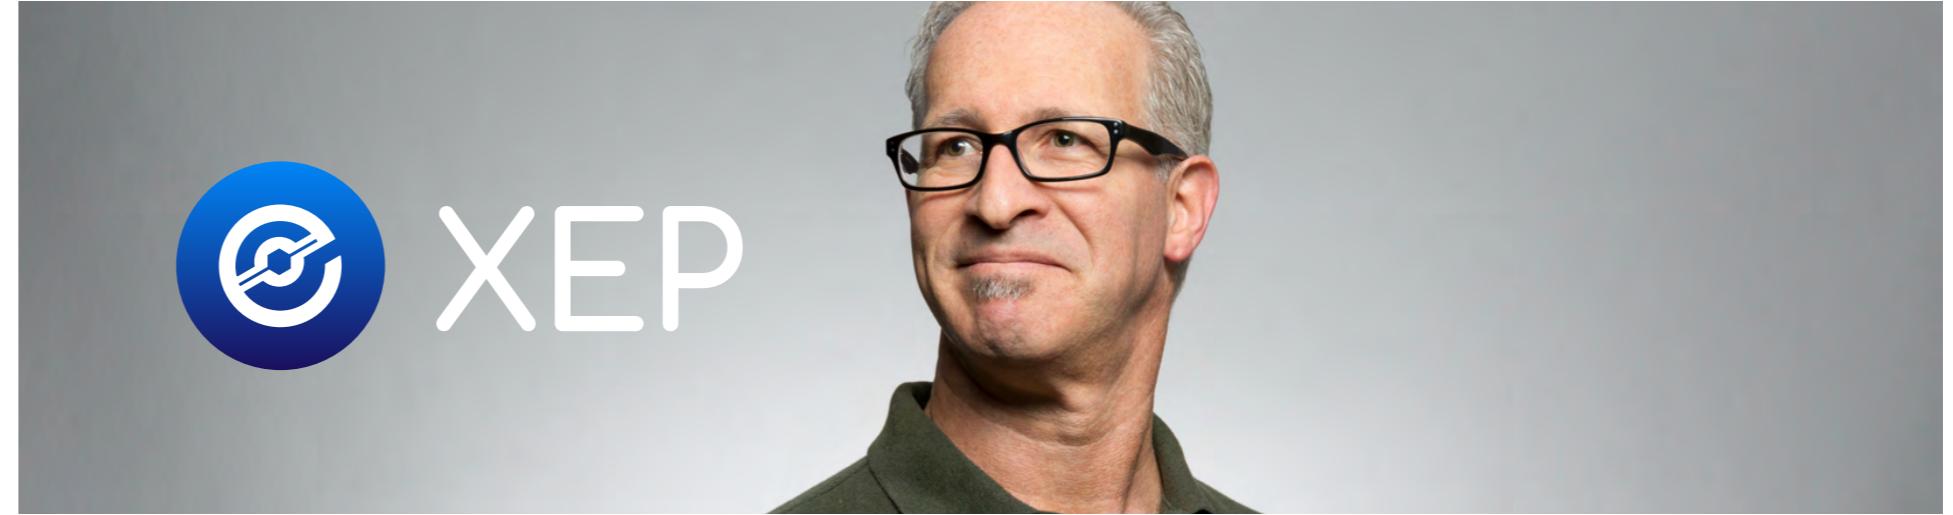

06

06

BANNERS

Web banners use the same principles for typography, backgrounds, and photography. Use simple, strong, personal, confident imagery.

PHOTOSTYLE

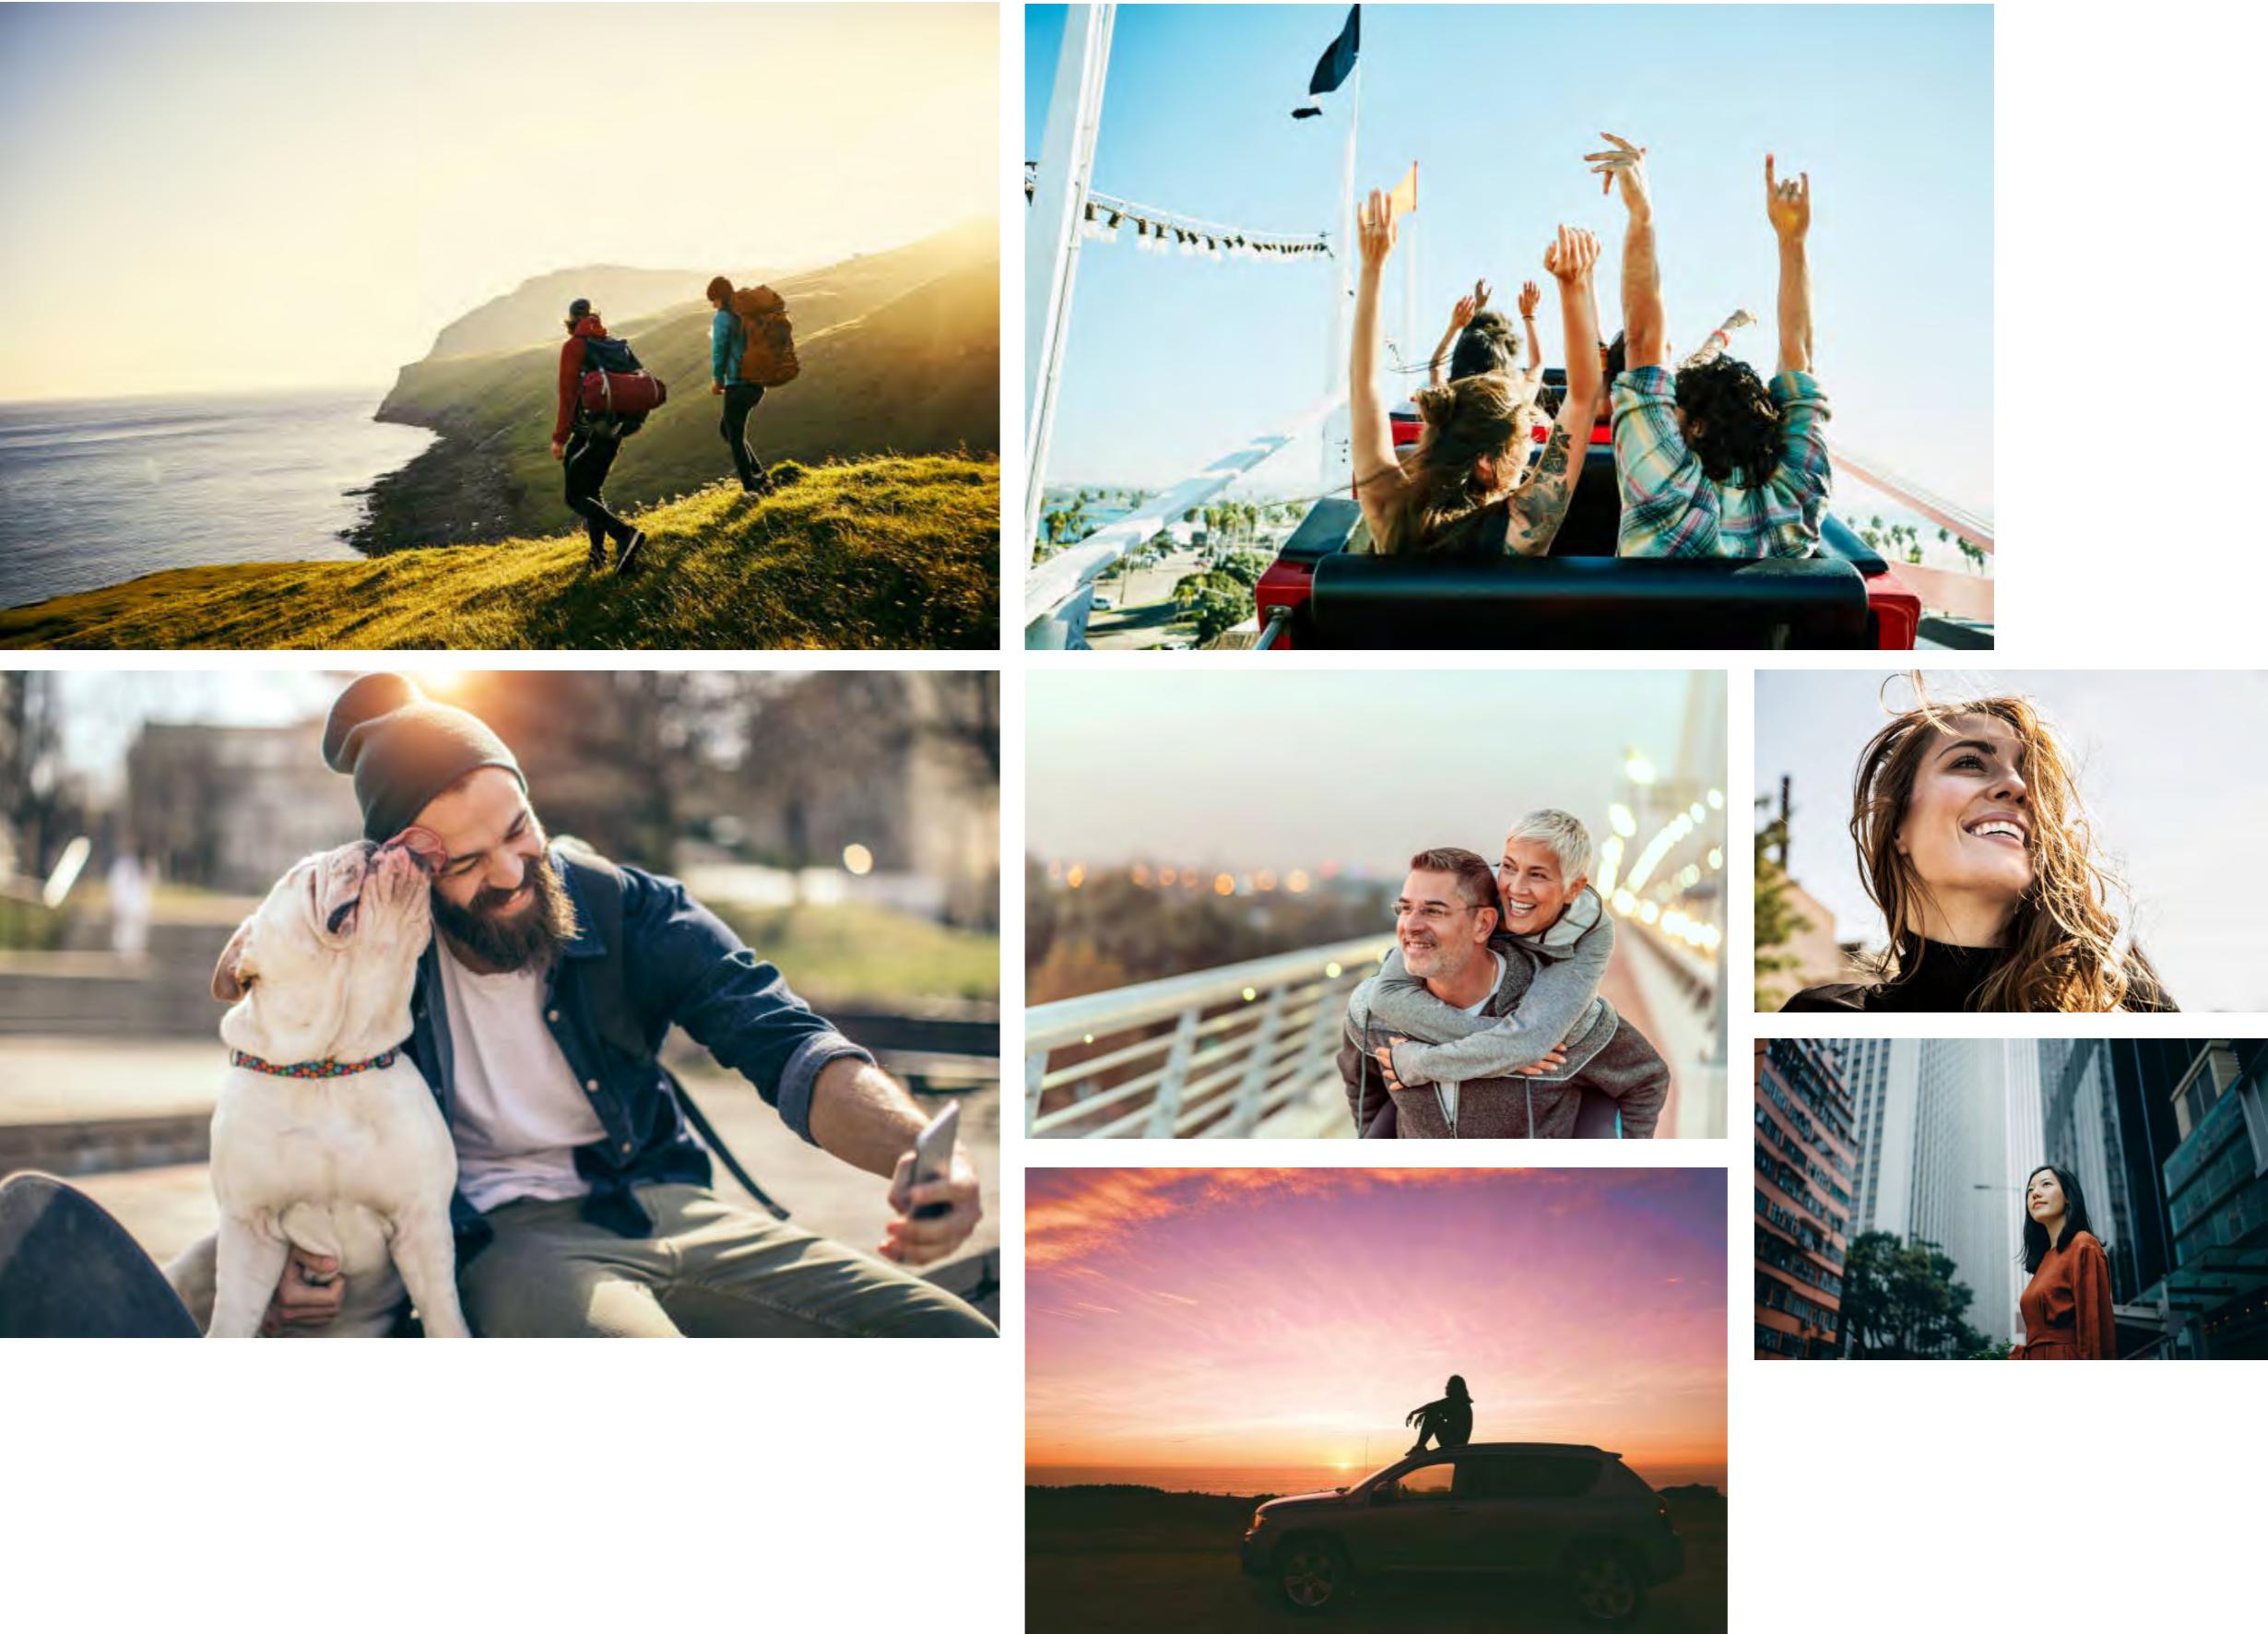

09

XEP PHOTOSTYLE

Images should be emotional, energetic by composition; in all plots there must be a person of action. Our heroes in the frame are doing such things as exploring something, participating in sports, laughing, communicating, thinking, or playing. These are modern, active, optimistic people of different ages.

Photos with a focus on the main subject and uniform background are a priority. There are no restrictions on image composition. Use is allowed in both general and close-ups.

09

PHOTOSTYLE INVALID OPTIONS

IMPORTANT!

You cannot use heavily retouched and staged photos.

When applying color filters to images or photos, use only colors from this brand guide.

Do not use trivial images with handshakes and do not crop the main objects of photographs or photos with difficult backgrounds.

Do not use copyright protected photos.
